

June 21, 2006

To Whom It May Concern:

Subject: I.T.S. Worldwide Inc. dba City Video Guide

The parent company of HCP/Aboard Publishing is Knight Ridder, a publicly traded company which owns and operates 32 newspapers and related websites. HCP/Aboard produces 40 custom published magazines and books as well as companion web components that are focused on the hospitality and tourism industries.

HCP/Aboard have partnered in business with CVG for over two years and plans to expand their relationship. We are very pleased with the level of professionalism and dedication that Joyce Cromarty and her video team has provided, to ensure the growth and success of our joint venture print/video program. In 2005 we engaged two markets that proved to be successful for both companies. Presently CVG has in receivables, through combined 2005 sales contracts, in excess of \$195,000.

In August 2006 HCP engaged CVG services in two additional HCP/Aboard markets, in which sales efforts began in May of 2006. These additional markets will provide substantial additional revenues to CVG through 2007

HCP is entering into a multi-year extended agreement that will contract CVG as HCP/Aboard's exclusive video partner with plans to open several new markets in Q4 of 2006. The projections include opening an average of six new markets per year. The partnership also includes expanding the use of video on HCP/Aboard's web sites.
